

Notes:
 1. Grid coordinates on the lines measured using a Topcon-Hyper-Plus receiver and balanced using OPUS-RS; remaining coordinates calculated.
 2. Flood information taken from the Forsyth County GIS system. See F.I.R.M. map number 370670231H effective date Oct. 20, 1998, for details. Stream locations taken from the Forsyth County GIS system.
 3. Map revised Oct. 11, 2007 to add curve table information.

 - EW Easement
 - FF 100-Year Flood Line
 - FW Floodway

I, James B. Stephens, certify that this plot was drawn from an actual field land survey made under my supervision that there are no encroachments either way across property lines except as shown; that all areas shown are by coordinate computation; that the ratio of precision as calculated is 1:10,000 and misclosure was distributed by the compass method; all distances are horizontal ground unless otherwise noted.

Witness my hand and seal this 31st day of August, 2007
