1. As a college student, what three issues concern you most in Winston-Salem, and why?

1. Our young adults attending college locally, graduating, and staying in the city versus attending college elsewhere and not coming back to Winston-Salem.
 2. The lack of summer employment for our highschool students, this is a concern because if faced when they have idle time they will find other things to do that may not be productive.
 3. Lack of summer (free) educational programs - Need to be able to help those who

2. Explain a time when your college/university collaborated with the local community and how this experience benefited both students and the public.

I think the collaboration with the Angel Tree Project was a great effort and success. This project focused on those in need and worked like the Salvation Army's Angel Tree. With Forsyth Tech they worked within its community (The students) and helped those students who had families in need and we were able to provide many families with gifts through the support of staff, students and clubs.

3. What change/effect do you plan to have on the local community before you graduate?

So let the community know that there are people who care about them, their situation and who truly want to assist them in recovering to a normal state in life. To let the community know also that there are opportunities for advancement. Lets about getting involved and having a passion for your purpose.
