Dear Mrs. McBride,

I have seen the kind of houses on the country club tract near Southfork school & and there are too many large houses with no windows on the sides on on lot. I am concerned that these houses will be the same and because of so many houses together, they do not blend in with the other houses in our developments. We all have large lots and trees and I worry that profit drives these large corporations more than blending into a neighborhood. These corporations are buying up all the land they can get to put a lot of houses on them. I get requests from groups to buy my house & lot all the time. I am not interested in that as I know they would tear down my house & build 3-4 on my lot. I am sure all other homeowners get these letters too. It has to stop somewhere, and I do not want to see it in our neighborhood.

Sincerely,

Linda Jordan Eire, 230 Blake Street,
Winston-Salem, NC 27104
