

Affordable Housing Development – Cycle 2

Neighborhood Services Director
Shantell McClam

Review Agenda

- Introductions – New Housing Development Director
- Affordable Housing Development - Cycle 2 Overview
- Evaluation Process Review
- Proposal/Developer Analysis
- AHD Evaluation Team and AH Coalition Feedback & Recommendations
- Next Steps
- Q & A

Special Thanks!!!

Neighborhood Services/Housing Development Team:

Shantell McClam and John Quiros

Affordable Housing Development Evaluation Team:

Bill Brewer, Matthew Burczyk, Kelly Garvin, Shantell McClam, Dr. Shaleen Miller,
John Quiros, Jakira Westbrook

Affordable Housing Coalition:

(Interim Chair) Cory Harvey, Joseph Crocker, Richard Daniels, Jon Lowder,
David Myers, Ken Patridge, Raymond O'Pharrow, Noah Sibbett, Sylvia Squire,
Frances Sullivan, Emily Thompson

AHD Cycle 2 Overview

- Affordable Housing Development application process – opened June 23, 2025 - closed at 5:00pm August 1, 2025
- Advertised: direct email (60+ developers), newspaper, website
- Total responsive proposals: 28 / 6 developers
- Proposal Types Varied:
 - ✓ Multi-family complexes for site control, including apartments and townhomes: 3 parcels – 1 contested
 - ✓ Small Scale single-family homes: 20 city-owned parcels requested
 - ✓ Single-family home rehabilitation: 4 city-owned parcels w/structures

Evaluation Process Review

- Neighborhood Services/Housing Development Staff: preliminary review for responsiveness
- Affordable Housing Development Evaluation Team: Quantitative scoring utilizing below matrix
- Affordable Housing Coalition – Qualitative review and comments
- City Council – review and recommendations

Evaluation Criteria	Maximum Points
Development Quality	35
Leveraged Resources/ Financial Feasibility	30
Development and Management Team	25
M/WBE Participation	10
<i>Additional Points: Supportive Services</i>	10

Affordable Housing Coalition – Cycle 2

Feedback and Recommendations

Vecino Group

The project being proposed is in a good location that is accessible to many amenities, transportation and services. The developer was very creative with the utilization of this space, considering the difficult topography. The site design is attractive and is suitable with the surrounding community. The coalition would have liked to see the proposal include more 3-bedroom units. However, they were encouraged that the development would provide a great depth of affordability especially catering to households at or below 60% Area Median Income (AMI) which is missing in the current market.

Affordable Home Management

The proposed project is in a favorable location, though it currently has limited access to public transit. However, the site design incorporates a bus shelter, providing an opportunity to collaborate with Transportation to establish a bus stop. Note, this parcel was contested by another developer. The coalition felt that this proposal would be better suited for the location as it is providing 84 units of rental housing for families at or below 60% Area Median Income (AMI). And the facility would include amenities such as a community building, computer room, fitness center and playground which would be beneficial to the families in this community.

Prosperity Alliance – 0 Peters Creek

While the coalition agreed on the importance of building wealth through homeownership, they expressed concern that the proposed number of units, their size, and the price point would be limiting and primarily marketable to families. They acknowledged the City's need for affordable housing but emphasized that the greater current need is for a broader mix of unit types and deeper affordability. Accordingly, they recommend awarding the parcel to Affordable Home Management for development.

Prosperity Alliance – Rhyne Ave

The coalition felt that the Rhyne Avenue location is well-suited for the proposed affordable townhomes for homeownership. The site design is attractive and complements the surrounding community. The modern three-story units, featuring three bedrooms and two and a half bathrooms within 1,386 square feet, provide a spacious and practical option for families seeking affordable homeownership. The coalition also recommends that the developer incorporate a plan to preserve and sustain portions of the existing treescape and greenspace on the property.

Affordable Housing Coalition

Feedback and Recommendations cont..

Prosperity Alliance – Happy Hill Single-Family

The eight lots being requested are in a prime area of the city where there is a strong need for quality affordable housing. With a location score of 50, the homes will be situated within a two-mile radius of transportation options, key amenities, and essential services. The anticipated sales price of \$220,000–\$240,000 creates homeownership opportunities for a market segment that is not often served in this area. The development and management team has an established history of successful projects in Winston-Salem. The coalition was impressed with the proposed elevations, which include features such as garages and full-length porches, which will integrate well in this growing community.

Moravian Church of America

The developer has requested twelve lots strategically positioned across the city. The proposed site design is visually appealing and complements the surrounding communities. The plan aims to create fifteen homes for families pursuing affordable homeownership. The development and management team have designed practical, spacious homes that enable them to offer ownership opportunities at an accessible price of \$194,000 per home. Each home will include porches, energy-efficient appliances, and thoughtfully designed landscaping.

Whole Man Ministries

The coalition was pleased to see proposals that create unique homeownership opportunities through preservation. This developer has successfully completed 15 renovation projects, 14 residential and 1 commercial, totaling over \$750,000. The current plan proposes the rehabilitation of a blighted home, improving the community while also providing an affordable path to homeownership.

Bells Property Management

While the developer does not yet have extensive experience in home rehabilitation, the coalition believes she should be given the opportunity to carry out the plan outlined in her proposal. Her proposal seeks to rehabilitate three blighted homes and make them available as affordable rental opportunities for families. Additionally, she has committed to paying a fair acquisition price for the properties, demonstrating her strong investment in the success of the project.

Next Steps.....

- City Council approval – **November 3, 2025**
- Developer Conditional Award Notifications – by **November 14, 2025**
- Next Cycle (LIHTC & City Owned Lots) – **Early December 2025**
