W-3649 Entertainment Unity Group Studio Neighborhood Outreach Summary

On May 14, 2025, we personally went door-to-door to property owners within 500 feet of the subject site and beyond to issue letters and have a brief conversation if they were home. We left a flyer for those neighbors who weren't home. The letter provided an alert of our rezoning request and an invitation to join us for our meeting held on May 24, 2025. Contact information for the company of the petitioner was provided.

One neighbor called to inquire about the zoning and if the rezoning was for an apartment. We informed him about what our company offers, and once a summary was provided, the property owner did not express any concerns with the request. Two neighbors attended the neighborhood meeting on the day of.

Please refer to the attached copy of the outreach letter provided to the neighbors.
