**Subject:** [EXTERNAL] Pls Attach to W-3599 'Sensitive'

Dear Nick & Staff:

Please attach this unprecedented note to case W-3599 ...

I submit this written statement (which deserves discretion) because it may be 'too sensitive for public speech' in planning/zoning deliberations.

I like millions of U.S. veterans have suffered thousands of excruciating migraines, nightmares, and myriads of debilitating pains for years, quietly, unrecognized, and alone.

We are the brave, selfless, but kindly-warriors who came home to find our country divided & many (not all) blind to the true meaning of freedom.

I've written on behalf of my older & younger 'salt of the Earth' neighbors, now I speak for myself and other vets. At 58 years old, after 50+ lifetime moves all over the U.S., I have finally found HOME here in lovely-green Winston-Salem ... last time felt at 18 leaving for college.

As a former 35D (Tactical Intelligence) Army Officer, some times, a tactical retreat becomes necessary...

In regard to W-3599, we can not.

If Pultes' heavy construction equipment is allowed to feed & pass thru our Turtle Creek unabated (by connecting Devin Kathleen)... I must accept that it will likely significantly-alter the relative calm & quiet of our surrounding sanctuary, our Home.

Thank you for attaching to the case file W-3599.

Best Regards,

Michael R. Parent
