Summary of Information:

The North Carolina Department of Transportation (NCDOT) is beginning the project to completely upgrade and streamline a one-mile section of U.S. 421/Business 40 from west of Fourth Street to east of Church Street in Winston-Salem. The State TIP Number U-2827B project will include removing the existing pavement and replacing it with new concrete pavement. The project will also modernize the entrance and exit ramps, and replace most of the bridges on and over Business 40 with new bridges that meet current traffic demands and modern design specifications. The project will create a safer, longer lasting roadway that will help drivers get where they need to go more efficiently.

NCDOT has made an offer of \$32,825 to purchase strollway improvements which are needed for the construction of the above project. These improvements are further described in attached Exhibit A. The offer is believed to be reasonable for the needed acquisitions.

N.C.G.S. 160A-274 permits such sales, and the attached resolution authorizes the sale of the improvements as described in the attached Exhibit A.
