**Attachments:** Zoning Change Support.pdf

Hello!

I am reaching out to forward the letter of support from the West Salem Neighborhood Association and to summarize our community outreach efforts to keep our neighbors in the loop about the zoning changes.

My partners and I canvassed the neighborhood and handed out postcards to neighbors within the 500' radius of the property over the past two weeks. We also posted on our neighborhood Facebook page (with over 1,100 neighborhood members in and beyond the zone) this week about the zoning changes and intended use of the building - inviting neighbors to ask questions of us about the intended uses and also attend the monthly neighborhood meeting to hear more. We culminated our efforts by asking to be put on the neighborhood monthly meeting agenda for September 4th. At the 7pm meeting, with approximately 15-20 neighbors in attendance, we again reviewed our tentative plans, defined what the zoning changes meant for the neighbors and answered any questions we could. We did not have any in opposition and the President of the association, Sal Patino asked all in attendance if they were in favor of supporting us. The decision was a unanimous "yea" and the letter of support is attached.

Thanks again for all your help in this process!

~Sprigg

Hi,

Here is a letter of support from WSNA for the zoning change.

**Salvador Patiño**

Project Manager/Lead Designer

(336) 701-0242

To the members of city council and the planning board,

The zoning change case for the corner of West St. and Green St. was presented to the West Salem Neighborhood Association during our monthly meeting on September 4<sup>th</sup>, 2018. After an explanation of what the zoning change would entail, the neighborhood reached an agreement that it would be beneficial to our neighborhood. The West Salem Neighborhood Association support the change in zoning for case W3882.

Sincerely,

**Salvador Patiño**

President of the West Salem Neighborhood Association
