## **City Council – Action Request Form**

**Date:** October 15, 2024

**To:** Mayor, Mayor Pro Tempore, and Members of the City Council

From: Aaron King, Assistant City Manager
Jeff Fansler, Director of Transportation

## **Council Action Requested:**

Resolution to Approve Changes in the State Highway Secondary Road System Within the Existing Corporate Limits of the City of Winston-Salem.

Strategic Focus Area: Quality Transportation

Strategic Objective: Improve Integrated Road Network

**Strategic Plan Action Item:** No

Key Work Item: No

## **Summary of Information:**

Periodically, the City of Winston-Salem Department of Transportation (WSDOT) and the North Carolina Department of Transportation (NCDOT) staff review streets located within the corporate limits of the City of Winston-Salem to determine if any streets should be changed from NCDOT system to the City system or changed from the City system to the NCDOT system. A resolution from City Council approving these changes is necessary to add a street segment to the City system for annual maintenance.

With the completion of the Salem Creek Connector roadway project (NCDOT Project U-2925) and subsequent warranty period, NCDOT is requesting to transfer portions of Research Parkway (SR 4033) and Rams Drive (SR 4326) back to the City of Winston-Salem. The sections in question, and shown on the attached map, are eligible to be included on the Powell Bill for annual maintenance.

The changes reflected in this resolution include:

- 1. 1.08 mi of Research Parkway to be transferred from NCDOT system to the City System
- 2. 0.08 mi of Rams Drive to be transferred from NCDOT system to the City system

This transfer will occur following the North Carolina Board of Transportation's approval. A description and limits for this street segment are attached.
