**Subject:** Re-Zoning Case 3375

Hi Gary, As I said in our conversation, my objection to this case is limited to additional uses of food or store and furniture and home furnishing store. While I do have a nice tree line buffer, once winter comes my view of the street is much greater. These added uses would likely have expanded hours of service as opposed to the current uses along the street. I feel that the property that borders 3300 Reynolda to the west would likely have the same concerns. My personal email is [ntritt@icloud.com](mailto:ntritt@icloud.com). Also, I did speak to Luke at Stimmel (site people) and he said that my concerns were reasonable and he would bring them up to the property owner.

Thanks so much, Nancy
