

City Council – Action Request Form

Date: January 15, 2019

To: The City Manager

From: Johnnie Taylor, Director of Operations
Keith Huff, Director of Traffic Field Operations

Council Action Requested:

Approval of City participation in a drainage project across private property according to Section 75-35 of the City Code. (North Ward)

Strategic Focus Area: Healthy Environment
Strategic Objective: Manage Water Quality and Quantity
Strategic Plan Action Item: No
Key Work Item: No

Summary of Information:

Section 75-35 of the City Code allows for City participation in drainage projects across private property with a single owner as long as the project meets certain criteria. The project must carry street water; the residences must have been occupied for at least two years; the drainage condition must threaten the structural integrity of the residence, flood the residence or cause severe erosion of the drainageway; and the action taken must significantly improve the conditions.

The Stormwater Division was contacted by Mr. James Gilley who requested assistance to repair a deteriorated drainage system at 2170 Nettlebrook Drive. His problems meet the requirements of Section 75-35. The estimated cost to repair the deteriorated drainage system is \$38,700. The property owner would be responsible for 30% (\$11,610) and the City's cost would be 70% (\$27,090). Staff recommends approval of this project.
