Reynolda Smiles Rezoning: Community outreach summary

I am letting you know that my community information letters were distributed November 16. I hand delivered them to the businesses and residences within 500 feet of my office. I delivered 27 notices. I have waited to hear responses until November 28. So far no responses have come from any of the neighbors. To be comprehensive there was one business owner who thought it was silly that I needed to rezone my parking lot so I could park there. I don't agree with his position but I wanted to report all my findings as instructed.

To: Neighborhood residence,

Great news! Reynolda Smiles, your neighborhood dentist, is adding on. We are attempting to add six more treatment rooms in order to better serve the residence of Winson-Salem. In order to do this, Reynolda Smiles (3244 Reynolda Road) purchased the adjacent lot, 3238 Reynolda Road, in order to provide adequate parking. Since the two lots are not zoned the same, the city is requiring us to rezone so they have the same zoning letters for their records.

We wanted to inform you so that if you have any questions or issues with us parking in our lot that we could address your concerns. We anticipate an increase in traffic by 25-30 cars/day on the five days a week we are open.

As valued neighbors we want to extend an opportunity for you to experience the amazing customer service and exceptional clinical care that our doctors provide. Feel free to call our office 922-2542 to schedule an appointment.
