

APARTMENT PETITION

We, the undersigned do hereby support the proposed apartment complex on West Fourth Street. We view this proposal as a step in raising the Standard of Living in this area. We also view this proposal as a step toward promoting this area to the level of service for the individuals that live and work here.

While the amount of traffic and density of the apts. Seem to be a concern. The positive results of this project (nicer living units, reclaiming areas that have been neglected, providing a pleasant transition from the functionally obsolete buildings to housing units that encourage a supplement to residents that are trying to raise their standard of living simply do not have the economic ability to do so) far outweigh the negative impact

We feel the proposed apartment complex will provide potential customers for our businesses and an added positive influence to our area in general.

We encourage the support of this proposal.
