Adopted by City Council in 2012, the *Legacy 2030 Update* comprehensive plan was intended to provide recommendations through the year 2030. As we approach 2030, Planning and Development Services staff has begun the process to develop a new comprehensive plan. As an initial step, staff completed a literature review of recently adopted comprehensive plans from municipalities across the country as well as analysis of current demographic data and development trends and topics last year.

Since last September, staff has begun outreach for the new plan, Forward 2045, to gather public input. Staff has attended community events and public board meetings, held stakeholder meetings, and developed a website and online survey as part of the outreach effort. Beginning in October 2023, staff will hold in-person community input meetings to gather additional input on desired policy and action item recommendations.

Planning staff will be present at the September 11 Community Development/Housing/General Government Committee meeting to provide an overview on the plan's development to date and the upcoming community meeting schedule.
