Subject: W-3329

This is concerning the zoning request W-3329. We own rental property on Lansing Dr. closest to the intersection with Carver School Rd. The zoning request does not say how the property will be used and leaves open the question of what kind of business would be there. It could be a 7-11 that would invite crime, or a business that would provide jobs and a real contribution to the neighborhood. At this point, it is not something I support. I want to protect the neighborhood, because we have a church and a library on the other corners. We don't need a convenience store or a Dollar General. This property could be used for housing not business.

Thanks you,
John W. Corum,II
