RE: 905 & 907 S Broad Street

On August 24 we mailed 90 letters to property owners in the general area surrounding our site informing them of the proposed rezoning and asking them to contact us by September 1 if they had any questions or concerns to express. We heard back from 4 individuals who had positive feedback to our plans and are excited for this new project. We received one concern about the potential of being a late night and noisy restaurant, which will not be an issue because we will be having regular restaurant business hours. We have responded to their concerns to the best of our ability.

Sincerely,

Claire Calvin
